

Homework for Fifth Class: Ms Dunne:

English Group:

Hope you and your family are keeping well. I know you're probably really missing school by now. Here's some work to do in the next week before the Easter holidays.

- Read over 'Crocodiles' in your reading book.
- Write five facts you learned about crocodiles in your copy.
- Add 'y' to these words and write them in your copy:

sleep

cloud

greed

fizz

dirt

salt

lump

storm

bump

snow

Do your best to read a little each day or listen to a story being read if you prefer. Maybe you could read a story to any younger children in the house to help keep them entertained.

Stay well.

Ms. Dunne

Maths Group:

Hi girls,

I hope you're all well. No doubt you're all really missing school by now. Easter is nearly here and so you'll have a break from school work for a couple of weeks. Here are a few ideas of things you could do this week because it's a good idea to do a little bit of maths work each day.

- **Tables**

Revise your 2x, 5x and 10x tables.

Count in 2s, 5s and 10s. We call this skip counting.

See if you can go backwards too for example start at 24 and count backwards in 2s - 24, 22, 20, 18 ... Skip counting will help you with your tables.

- **Time**

Look at the clocks you have in your house. Practise reading the time. Do this a few times throughout the day.

Draw some clocks in your copy showing o clock, half past, quarter past, quarter to. Write the digital time under each clock also.

- **Fractions**

Draw a circle, a square, a rectangle in your copy. Divide each shape into quarters. Colour one quarter of each shape.

Draw a circle, a square, a rectangle in your copy. Divide each shape into eighths. Colour two eighths of each shape.

- Try out some of the maths games suggested on the school website.

Don't worry about getting all the work done. As I said do a little bit each day. Make sure you have fun. Play games, bake, create some art, get some exercise. Most importantly stay well and stay happy.

Ms. Dunne.
